VX350 Pocket Moving Glass Walls

Searching for a competitively priced sliding patio door that epitomizes modern design? Look no further: We introduce the VX350 Moving Glass Walls system. Engineered to enhance your interior space while allowing uninterrupted views to the outside, the VX350 is the vinyl patio door of the future. Its functional features – like its durability and first-rate energy efficiency – complement its aesthetic qualities to produce a top-of-the-line patio door.

What you can expect

MIDCENTURY MODERN DESIGN

The VX350's panels are engineered to slide into a pocket in the walls when open. While aesthetically pleasing, this design also merges your interior and exterior spaces, making it ideal for entertaining.

ENHANCED VIEWS

Combining narrow sightlines with wide glass panels, the VX350 provides tremendous views of the outside. And thanks to its size – the VX350 tops out at nearly 20 feet wide – you'll have numerous vantage points from which to enjoy the outside world.

DURABLE VINYL CONSTRUCTION

The VX350 patio doors are made from high-quality vinyl, known for durability and low maintenance. Vinyl is resistant to moisture, warping, and corrosion, ensuring long-lasting performance and minimal upkeep offering reliability and low maintenance in various climates.

Engineered to perform

- Available in three- and four-panel configurations
- Can achieve a 0.25 U-factor for superior energy performance.
- Slides neatly out of the way into a “pocket” in the wall.
- Glides easily on a specially developed floating track.
- Meets or exceeds all standards set by the National Fenestration Rating Council.
- The VX350 comes with a Lifetime Limited Warranty.

Max sizing

WIDTH	HEIGHT
3 - PANEL	
177.781"	95.875"
4 - PANEL	
236.156"	95.875"

Energy efficient glass

Able to meet ENERGY STAR® requirements in all four climate zones. Our dual-pane insulated glass package options help save on heating and cooling costs while enhancing home comfort.

- In cool weather, insulated glass provides outstanding thermal performance to keep interior glass surfaces closer to room temperature, eliminating cold spots
- In warm weather, it helps reduce solar heat gain and minimize glare to improve interior comfort

GLASS PACKAGE	U-VALUE	SHGC	ENERGY STAR ZONE
SunCoatMAX with Argon	0.29	0.22	
SunCoatMAX/i89 with Argon	0.25	0.22	N, NC, SC, S

All values are for 1" insulated glass.
