VX350 Stacking Moving Glass Walls

Give your home that “wow factor” you’ve been looking for with our VX350 Moving Glass Walls system. Engineered for peak performance and aesthetics, the VX350 has everything you want in your next patio door. Durable, affordable, energy efficient, and loaded with aesthetic features, the VX350 is a vinyl patio door designed for the 21st century.

What you can expect

AMAZING VIEWS

Featuring a clean design, narrow sightlines, and wide glass panels, the VX350 enables tremendous views to the outside. Plus, the four-panel configuration tops out at nearly 20 feet wide, offering even more viewing space.

SUPERIOR ENERGY EFFICIENCY

The VX350 can achieve a U-factor of 0.25 thanks to energy-efficient features like Low-E glass, dual panes, and argon-gas infill. These factors and others will help maintain interior temperatures regardless of the season.

DURABLE VINYL CONSTRUCTION

The VX350 patio doors are made from high-quality vinyl, known for durability and low maintenance. Vinyl is resistant to moisture, warping, and corrosion, ensuring long-lasting performance and minimal upkeep offering reliability and low maintenance in various climates.

Engineered to perform

- Available in two-, three-, and four-panel configurations
- Integrated weep system has a 1.5-inch sill height.
- A floating track insert allows for easy operation.
- Panel screen option helps keep bugs and debris out of your home.
- Standard door handle is color matched with the frame.
- The VX350 comes with a Lifetime Limited Warranty.

Max sizing

WIDTH	HEIGHT
2 - PANEL	
121.313"	95.875"
3 - PANEL	
179.687"	95.875"
4 - PANEL	
238.062"	95.875"

A 79.875" height is available on select widths. Contact your sales representative to learn more.

Energy efficient glass

Able to meet ENERGY STAR® requirements in all four climate zones. Our dual-pane insulated glass package options help save on heating and cooling costs while enhancing home comfort.

- In cool weather, insulated glass provides outstanding thermal performance to keep interior glass surfaces closer to room temperature, eliminating cold spots
- In warm weather, it helps reduce solar heat gain and minimize glare to improve interior comfort

GLASS PACKAGE	U-VALUE	SHGC	ENERGY STAR ZONE
SunCoatMAX with Argon	0.29	0.22	
SunCoatMAX/i89 with Argon	0.25	0.22	N, NC, SC, S

All values are for 1" insulated glass.
